

Insert a Video into your PowerPoint Project

Once you decide on a video, do the following:

-Select share

-Select Embed

-Code will now appear

-Select – Use old embedded code

-Copy the online code

-Now go to your PowerPoint project and select the slide where you want the video to appear.

-Go to the ribbon on top of your screen. Select Insert.

-Select Video

-Select **Video from Web Site**

-Paste the Video Code in the blank text box.

-To see your video in your PowerPoint Presentation – Click F5

-Now go to your home slide to view your PowerPoint presentation – Click Slide Show – From Beginning.

-PowerPoint should take you to your Video Slide

-Click the arrow to start your youTube video.

-Enjoy the Show!!!!
